Making space for criminalistics: Hans Gross and fin-de-siècle CSI

In 1888, Hans Gross and his work laid the foundation for modern criminalistics, often referred to as the "father of forensic science". His work was reflected in the establishment of the Criminal Law Amendment Act, which aimed to improve the investigation and prosecution of crimes. This act, along with the Local Government Act of 1888, provided a legal framework for the regulation of crime and criminal investigation.

Clear opportunities exist for unethical officers and members to exploit public trust for personal gain. In addition, there are practical difficulties to decentralising the regulation of criminal investigation. The Association of Chief Police Officers (ACPO) has agreed to this revised approach for protecting the NAO and the Criminal Justice System.
