CrowdApp - Secure Mobile Ad-Hoc Resource Sharing on Android: Sharing Internet connections mobile with multi hop technology

by Stanislaus Stelle

Wi-Fi Direct, initially called Wi-Fi P2P, is a Wi-Fi standard enabling devices to easily connect. Hence, Wi-Fi Direct is single radio hop communication, not multihop wireless Wi-Fi ad hoc mode, however, supports multi-hop radio communications, with needed to complete the network setup and connect to the Internet. Download CrowdApp - Secure Mobile Ad-Hoc Resource Sharing on Android: Sharing Internet connections mobile with multi hop technology. This book is about the architecture, the.
